

The EU Space Programmes

Current status

- EGNOS/Galileo: Satellite Navigation
- Copernicus: Earth Observation
- SST: Space Surveillance and Tracking
- Plus:
 - European GNSS Agency (GSA): Executive Agency (Prague)
 - Horizon 2020: Space Research

The new EU Space Programme

In the near future

- As of 2021: 1 Single Programme, Proposed Funding of 16 Billion EUR
 - plus 235 Million for the GSA, in the future the „EUSPA“
- EGNOS/Galileo: Satellite Navigation (Achievement of FOC – Full Operational Capability)
- Copernicus: Earth Observation („extension and expansion“)
- SST/SSA: Space Surveillance and Tracking plus Space Situational Awareness
- GovSatCom: Governmental Satellite Communication (new initiative)
- Plus:
 - EUSPA: Transition from GSA to the EU Agency for the Space Programme
 - Horizon Europe: Research (proposed funding of 100 Billion EUR)
- Other issues: Governance (relationship to ESA), BREXIT, Update of the Austrian Space Strategy
